Cards

A card is a sheet that serves as an entry point to more detailed information.

About cards

Metro 4 provides any classes to create cards. A card is a sheet that serves as an entry point to more detailed information. Cards may contain a photo, text, and a link about a single subject. They may display content containing elements of varying size, such as photos with captions of variable length.

Simple card

Card header

Card with header and footer. Card header is used to display card title and footer for some additional information or for custom actions.

Card Footer

```
<div class="card">
  <div class="card-header">
    Card header
  </div>
  <div class="card-content p-2">
    Card with header and footer...
  </div>
  <div class="card-footer">
    Card Footer
  </div>
</div>
```

By default card have width 100% . You can set own size for your cards.
