Download

Download Metro 4 to get the compiled CSS and JavaScript, source code, or include it with your favorite package managers like npm, Bower, Yarn, and more.

Full Package

Package contains compiled and source files. You can use precompiled files or compile Metro 4 with your own asset pipeline by downloading our source Less, JavaScript, and documentation files. This option requires some additional tooling:

- Less compiler for compiling your CSS
- [Autoprefixer](#) for CSS vendor prefixing
- Build tools for compiling js files

* Author use Grunt with required modules.

Download source

Metro CDN

Use Metro CDN to deliver cached version of Metro 4 with compiled CSS and JS to your project.

```
<link rel="stylesheet" href="https://cdn.metroui.org.ua/v4/css/metro-all.min.css">
<script href="https://cdn.metroui.org.ua/v4/js/metro.min.js"></script>
```

* Metro CDN, provided for free by the folks at [KeyCDN](#)

Package managers

Pull in Metro 4 source files into nearly any project with some of the most popular package managers.

npm

```
$ npm install metro4@latest // full
$ npm install metro4-dist@latest // short
```

Yarn

```
$ yarn add metro4@latest // full
$ yarn add metro4-dist@latest // short
```

NuGet

Package manager

```
PM> Install-Package metro4 -Version {number}
```

.NET CLI

```
> dotnet add package Metro4 -Version {number}
```

Packet CLI

```
> packet add package Metro4 -Version {number}
```

Custom builder

Use [Builder](#) to create your own set of components.
